**HR Anew Wins Major Contract with the National Library of Medicine at the
National Institutes of Health**
Columbia, Maryland company will support MedlinePlus, MedlinePlus en Espanol,
Go Local, and NIHSeniorHealth

Columbia, MD - September 25, 2006. The National Library of Medicine (NLM) at the National Institutes of Health (NIH) awarded HR Anew a \$2.6 million contract to provide health information research and content, web site development, and support services to the Federal team that manages several of the agency's consumer health web sites. HR Anew's team of Medical Librarians and web design experts will provide support to ensure the web sites are current while also assisting with the development, enhancement, and maintenance of a high quality, user-friendly online resources for medical and health professionals, as well as consumers.

HR Anew, Inc. located in Columbia, Maryland, is a full-service human resources consulting and professional services firm with combined real world experience of more than 100 years in HR management and employee administration. The company includes human resource practitioners, HR information systems experts, recruiters, employment attorneys, executive coaches, trainers, educators, organization development consultants, and survey design and analysis experts. They help organizations achieve employment goals by recruiting, hiring, and retaining a highly competent, motivated, and productive workforce. HR Anew builds on what employers have already accomplished, and implements employment strategies to create a better future.

HR Anew President and CEO, Deborah Stallings, was recently honored with Maryland's 2006 Top 100 Minority Business Enterprise Award. Said Stallings, "HR Anew appreciates the opportunity to serve our country and the great State of Maryland by engaging our expertise to assist government agencies."

With more than 800 million items, the National Library of Medicine is the world's largest medical library, where thousands of individuals turn each year for support using the agency's services and products, databases, web sites, and resources. Established in 1998, MedlinePlus has more than 730 health topic pages in English and 690 of these topics are also available in Spanish. The web site house information from over 1,350 health related organizations and has more than 18,000 links to authoritative health information. During the third (3rd) quarter 2006, MedlinePlus had more than 24,000,000 visitors who combined viewed 215,000,000 pages on the web site.
